Bonus:
THB 86,868.00

LOGIC 2 :

When players enter two games at the same time under the same Game Provider (e.g., PP, BNG) and Game Categories (e.g, Slot, Live Casino) but opt for different wallets, the system will consider the last wallet used for betting and settlement.

Provider ☐

☐ PAA

☐ IDS

☐ JDB

☐ KGL

☐ KIRON

☐ **COCKFIGHT**

☐ DS88

☐ RLA

☐ RR

☐ RT(PHP)

☐ SC

☐ SPADE

☐ TK

☐ WAZ

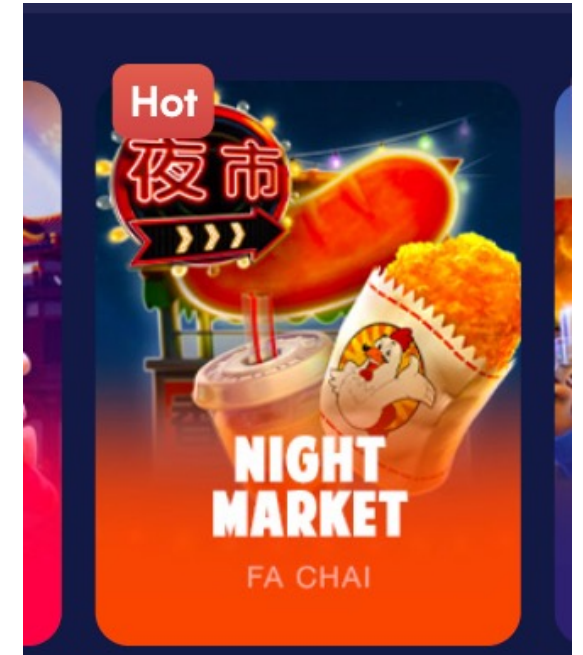

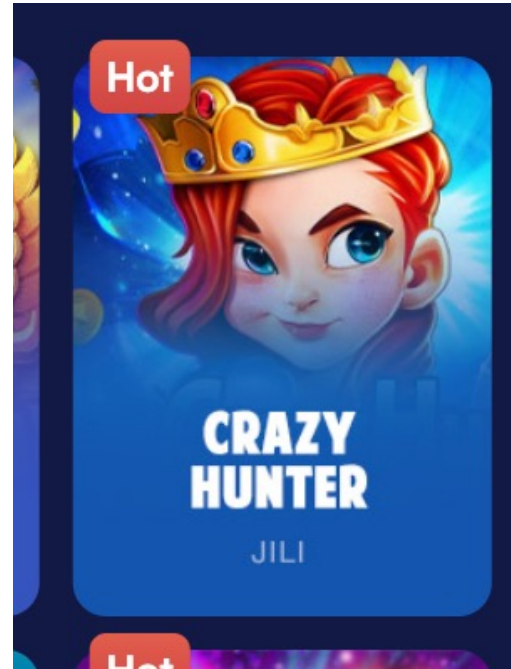

☐ YGG

☐ SVENUS

Example: If "JILI" provider is ticked," a player at first enter the "MINES" game and choose the "Main Wallet." After that, he enters the "Fortune Gems" and choose for "Bonus Wallet." In this scenario, the player plays in both games at the same time. The system will continue to use the last selected wallet, which is the "Bonus Wallet," for betting in both games.

LOGIC 3 :

If both providers are ticked, when players enter two games at the same time under different Game Providers (e.g., PP, BNG) and choose different wallets for each game, the system will be using respective wallet for each game.

Example:

BNG and Nextspin is not ticked. When player enters into game from BNG or Next Spin in this scenario, can only use Main Wallet to play.

LOGIC 5 :

When player plays two games at the same time under the same Game Provider and Game Categories but choose different wallets and haven't placed any bets but have closed the second game, the system will still consider the last wallet used (from the second game) for the result of betting and settlement in the first game.

Example: If "JILI" provider is ticked," a player at first enters the "MINES" game and choose the "Main Wallet." After that, he enters the "Fortune Gems" and choose for the "Bonus Wallet." In this scenario, the player plays in both games at the same time. This player did not bet in the second game "Fortune Gems" and close it. When player bets in the first game "Mines", system will still use the last selected wallet, which is "Bonus Wallet" for betting.
